4.1 Public Hearing: Learning Continuity and Attendance Plan for NU-HCS

Action Requested:

None

Previous Staff/Board Action, Background Information and/or Statement of Need:

The Learning Continuity and Attendance Plan is the plan for how schools will address key areas during the 2020-2021 school year. The areas the plan addresses are our in-person instructional offerings, distance learning program, pupil learning loss, mental health and social and emotional well-being, pupil engagement and outreach and school nutrition. Specific actions and services that improve or increase services for our students in these key areas are also included. Stakeholder feedback was used to develop these plans. This public hearing is another opportunity for the public to give input into the development of our plan.

ailable at	Email and Phone	slovett@nucharters.org (707) 445-2660 Ext. 110	ommunity.]	For Northern United - Humboldt Charter School, the impacts of the Covid-19 pandemic on our school and community was great. Families, staff and students experienced stress brought on by these unprecedented times. Families were impacted by having to be the main provider of their child's education while potentially experiencing a loss of income, food insecurities, and uncertainty in what the future holds. Staff were impacted by changes in instructional delivery models, concerns about health and safety and childcare needs for their own children. Students were impacted by changes in instructional delivery models, concerns about health and safety and childcare needs for their own children. Students were impacted by changes in their instructional delivery model as well as potential food insecurity and health and safety concerns. They also experienced a loss in social interaction and traditional end-of-the year activities. In order to mitigate mental health concerns within our school community, we instituted the policy that no student's grades would be harmed due to the school closure. Because of this, teachers gave students additional time to complete assignments and approached grading and due dates in a more holistic way.	Because our school and community had these experiences in the spring, using stakeholder feedback, we included interventions to mitigate these impacts. For example, in the fall of 2020-2021 school year we will be providing PPE to all staff, as well as regular deep cleaning and sanitizing stations throughout each facility. We will be holding regular parent meetings to instruct them on effective instructional techniques, as well as proper use of instructional technology. Nutritionally adequate meals will continue to be provided to our students.	Northern United - Humboldt Charter School is a non-classroom based charter school. We closed our facilities on March 13, 2020. Given that we are a non-classroom based charter school, our transition was more quickly implemented. Though we are non-classroom based, we have many facilities in which students meet their teachers for instruction and live classes. Once we suspended our in-person classes, we transitioned toward maintaining our regular class schedules in a virtual fashion. We moved all special education services to an online platform. We delivered instruction to students using a combination of Google Classroom, Zoom, and other online platforms. We ensured students had Chromebooks, internet access, and hot spots. We also continued with packets, textbooks, and other forms of traditional curriculum. Our tutors made themselves available to meet with students. We reached out to all families to inquire about their needs outside of the education of their children, including food insecurities, child care needs, household supplies, etc., with a special focus on students who qualify for free or reduced lunch or special needs. Our counselor and school psychologists held regular group and individual meetings

addressing the social/emotional needs of our students and families. We informed our families of the free breakfast and lunch opportunities provided by local school districts and the additional food resources in the community. The overall transition in the spring was effective, however we did find that for very young children, packets were more effective than digital meetings and for students with higher levels of need, we feel in person meetings will be most effective. Because in the spring we approached grading with a more holistic approach and put more emphasis on mental health rather than academics, we feel the need to increase and emphasize academic rigor to reduce learning loss and to create a more normalized educational setting for our students, staff and barents.
In the fall, we plan to implement the following changes: young students will be provided with engaging project-based lessons to minimize the time on digital devices; students who need higher levels of support will be offered in-person tutoring and instruction; expectations for students, families and teachers will be more focused on academic growth. We anticipate beginning the year with assessments to gauge academic levels of our students in order to target interventions appropriately. One-on-one meetings with students and families will occur as needed.
Stakeholder Engagement A description of the efforts made to solicit stakeholder feedback 1
Beginning in the spring, surveys were distributed by learning centers to families. These surveys addressed needed supports including meals, mental health support, instructional strategies, etc. Then in the summer, additional surveys were given to elicit feedback regarding reopening. Families were asked about their comfort level with students wearing masks at school, sending their students to a facility, etc. In addition to surveys, phone calls, emails, letters and meetings with families occured to continue to gather information, to keep them abreast of reopening, to determine student needs, to give Covid updates and to assess overall well being of students and families. All information related to closure, updates and Covid was posted on our website. Throughout the spring and summer, administration continued to meet. We had monthly meetings to discuss closure, instructional practices during Covid, student needs, State and local guidelines for reopening, a reopening plan, etc.
In addition to the administration meetings, a whole-school staff meeting was held each Friday between March 27th and the end of the school year. Staff discussed best practices, mental health concerns, student needs, grading policies, end-of-the-year activities, and reopening. Learning centers also held staff meetings throughout summer. The reopening plan, best practices, grading policies, student needs,

technology, translation services, meal planning, as well as reflection on experiences in the spring. Northern United - Humboldt Charter School does not have any bargaining units.
At each board meeting between April and August, school closure and its impacts and reopening considerations were discussed. The public was given the opportunity to comment at each of these meetings. We do not have an ELAC or DELAC group, but translated documents were provided as needed.
Based on feedback from students, families and staff, we determined that for very young children, packets were more effective than digital meetings and for students with higher levels of need, we feel in person meetings will be most effective. Because in the spring we approached grading with a more holistic approach and put more emphasis on mental health rather than academics, we feel the need to increase and emphasize academic rigor to reduce learning loss and to create a more normalized educational setting for our students, staff and parents. This feedback was all considered prior to finalizing the plan.
[A description of the options provided for remote participation in public meetings and public hearings.]
In order to promote stakeholder engagement, we contacted families in a variety of ways. We used our school dialing program, Dial My Call, to phone and text students and parents. We mailed letters home and we posted them on our website. We emailed surveys to families. For our public meetings, we posted all agendas on our website and at each of our facilities. The public was able to participate in the meetings through Zoom teleconferencing and phone calls. Any member of the public could also contact school administration to provide feedback. They had the opportunity to provide written feedback, phone calls, emails or through Zoom.
[A summary of the feedback provided by specific stakeholder groups.]
Based on feedback from students, families and staff, we determined that for very young children, packets were more effective than digital meetings and for students with higher levels of need, we feel in person meetings will be most effective. Because in the spring we approached grading with a more holistic approach and put more emphasis on mental health rather than academics, we feel the need to increase and emphasize academic rigor to reduce learning loss and to create a more normalized educational setting for our students, staff and parents. This feedback was all considered prior to finalizing the plan.
[A description of the aspects of the Learning Continuity and Attendance Plan that were influenced by specific stakeholder input.]
As stated above, based upon the feedback we received from our stakeholders, we have changed certain aspects of curriculum for our very young students. Knowing that they did much better with curriculum packets instead of digital meetings, we plan to implement this at a much

based instruction. Curriculum resources have typically remained the same regardless of an in-person or home-based independent study delivery model.
Access to Devices and Connectivity
[A description of how the LEA will ensure access to devices and connectivity for all pupils to support distance learning.]
At the time we closed in the spring, our teachers reached out to students and families to determine their technology needs. Chromebooks and internet hotspots were provided to all students who requested them. As new students have enrolled, they were also asked about their needs in this area. Chromebooks and/or hotspots will be provided to all who request them. We also provide computers, Chromebooks, hotspots, and document cameras to teachers as needed. Both our teachers and our IT department are available to provide help to parents and students struggling with technology use.
Pupil Participation and Progress
[A description of how the LEA will assess pupil progress through live contacts and synchronous instructional minutes, and a description of how the LEA will measure participation and time value of pupil work.]
As a nonclassroom based, independent study program, our attendance is determined by assessing the amount of work completed rather than physical attendance at a facility. If a student is found to be falling behind in their assignments, a meeting will be held, as outlined in our missed assignment policy, to determine how we can better support students in completing their assignments at home. We will also be tracking contacts with students, as well as their participation in Zoom classes and tutoring sessions. This data will help us determine which students are not taking advantage of the extra instructional supports we are providing and will be helpful when having a missed assignment policy meeting.
As part of our missed assignment policy and procedures, if a student, through observations and/or common assessments, is determined by their teacher to be not progressing or participating, the teacher will contact the parents, as well as an administrator. A meeting will be held with the family to determine what barriers exist to impede participation or progress and a plan will be developed and implemented to reduce these barriers and get the student back on track.
Distance Learning Professional Development
[A description of the professional development and resources that will be provided to staff to support the distance learning program, including technological support.]
Many of our teachers attended summertime professional development sessions offered from CUE pertaining to various Google products such as Classroom, Drive, Forms, and others. Teachers also attended sessions on best practices for online teaching and student

engagement in their grade level. Additional professional development will be delivered at our pre-service, all school meetings, as well as staff meetings throughout the year. This professional development, as well as the following list are the types of PD that we regularly provide to our staff since we are a nonclassroom based, independent study charter school. Ongoing PD for Google Classroom provided by in-house experts Interim Assessment Training provided by our CAASPP Coordinator Apex Learning (LMS) training provided by in-house experts Zoom training provided by school staff who have demonstrated effective instructional practices using this platform. How to effectively use a document camera How to support parents technology use Technology support will be provided by our IT department, teacher leaders and administration.
Staff Roles and Responsibilities [A description of the new roles and responsibilities of affected staff as a result of COVID-19.]
Since we are already a nonclassroom based, independent study program, much of what we do will not change, with the exception of increasing the frequency of interaction and engagement with their students beyond what is normally required by independent study contracts. Staff will need to become even more attuned to the emotional and mental health of their students. Staff may also be making more deliveries of supplies and meals to students' homes than they normally do.
Supports for Pupils with Unique Needs [A description of the additional supports the LEA will provide during distance learning to assist pupils with unique needs, including English learners, pupils with exceptional needs served across the full continuum of placements, pupils in foster care, and pupils who are experiencing
Additional supports will be provided to assist students with unique needs in the following ways: EL Students: We do not have any EL students at this time. If we have an EL student enroll, the EL Coordinator will assess him or her and the student's teacher will provide targeted language acquisition instruction daily through Zoom. Students with disabilities: Resource specialist time will be delivered primarily online whenever possible or allowable. When in-person resource time is needed, students will come to any of our learning centers for in-person sessions. Similarly, extra tutoring will be available online, and in-person as needed. Speech services are delivered online. Foster and Homeless Youth: Our foster youth/homeless liaison will reach out to each foster and homeless student to determine specific needs and to provide resources as needed, including support in receiving public assistance services, laundry, food and supplies. Our school counselor will also contact these students regularly. Tutoring services will be provided as well. We will work with the Humboldt County Office of Education Foster/Homeless Youth Coordinator to provide additional supports and services.

health and social and emotional well-being of pupils and at will be provided to pupils and staff to address trauma	Teachers will play an important role in monitoring the mental health and social and emotional well being of students. Through regular online interactions with students and discussions with parents, teachers and other staff members will have ample opportunities to assess students' well being. We will have regular staff meetings in which we will discuss our observations. This will allow a time for teachers to share their concerns with other staff, counselors, and administration and put a plan of action in place to provide support to students who need it. We also contract with an internet filter company that not only monitors student searches, but also student emails, looking for words or statements that suggest a risk for self-harm. We will revisit PD for our staff in trauma-informed teaching practices.	The school counselor and school psychologist have regular office hours in which they are available for consultation and counseling services for students and staff. They compiled a list of resources for mental health support. This resource list is shared with all staff and on our website for family and student access. It is kept up-to-date as new resources emerge. The counselor and school psychologist meet via Zoom with students needing support. In addition, counseling support and referrals to outside agencies such as Changing Tides Family Services will be instituted if our counselor deems it necessary.	Puni and Family Fngagent and Outreach		Tracking of student engagement will be completed through Zoom class attendance and documentation of school work completed as required for attendance in the independent study instructional model. In order to maintain the highest level of student engagement, we have a multi- tiered strategy for pupil engagement. Tier one includes weekly Zoom meetings with students and families, phone calls to families of students who miss Zoom meetings, regular messaging to parents using Dial My Call platform, and home visits when a student or family can't be reached by phone or text. In order to outreach to families, a comprehensive list of community resources will be posted on our school website, and translations will be made available of all communications, as needed.	After one missed class or scheduled meeting, or a series of missed assignments, we begin our tier two strategy. The first step is that the teacher has a verbal conversation with the parents and student about missing class time and/or assignments and the reasons this is ²⁰²⁰⁻²¹ Learning Continuity and Attendance Plan for Northern United - Humboldt Charter School

4.2 Public Hearing: Learning Continuity and Attendance Plan for NU-SCS

Action Requested:

None

Previous Staff/Board Action, Background Information and/or Statement of Need:

The Learning Continuity and Attendance Plan is the plan for how schools will address key areas during the 2020-2021 school year. The areas the plan addresses are our in-person instructional offerings, distance learning program, pupil learning loss, mental health and social and emotional well-being, pupil engagement and outreach and school nutrition. Specific actions and services that improve or increase services for our students in these key areas are also included. Stakeholder feedback was used to develop these plans. This public hearing is another opportunity for the public to give input into the development of our plan.

Fiscal Implications: None

Stakeholder Engagement
[A description of the efforts made to solicit stakeholder feedback.]
Surveys were sent to families during the spring semester with questions relating to the level of success and/or struggle of both parents and students after we closed our learning centers. Regular staff meetings every Friday via Zoom during the time we were closed in the spring. Regular meetings with teachers in July to complete specifics of the reopening plan relevant to the facility in which they worked. Weekly meetings with administrators of schools throughout the county.
Board meetings in June and August allowed time for stakeholder input into our reopening plan. In-person option available for families without access to the internet. To date, we have no non-English speaking families. In the case that we do, we have a Spanish instructor who can provide translations of documents and discussions. In September, we will hold a public hearing to allow further input. 72 hours after that meeting our board will vote on the plan.
Northern United - Siskiyou Charter School does not have any bargaining units. We do not have an ELAC or DELAC group, but translated documents were provided as needed.
[A description of the options provided for remote participation in public meetings and public hearings.]
All of our board meetings are streamed live via Zoom. The link to join is posted on the agenda on our school website. The agenda for each meeting is also posted at each of our facilities. We have an in person option available for each of our meetings for those who do not have access to the internet. In addition to the agenda and the background information posted on our website, the minutes of each meeting are posted on our website once approved by the board. Recordings of all meetings are also posted on our school website. If someone does not have access to the internet, they can phone us and printed copies of any board documents will be made available to them, either to be picked up or sent to them via USPS.
[A summary of the feedback provided by specific stakeholder groups.]
We are an independent study school, so most of our families are already educating their children at home with resources and instructional support from our school. However, we do have one small elementary program that has over time developed a four day a week instruction model. Of those families, 75% of respondents said that they felt successful in managing their child's education during the closure in the Spring. Other families that are already providing daily instruction to their children noticed little change or disruption in their schedules. Feedback from both parents and staff told us that Zoom was not an effective tool to use with TK/K through students in grade 2. They had a hard time focusing on what the teacher was presenting. Additionally, we found that our focus on mental and emotional health rather that academic rigor may have resulted in learning loss.
2020-21 Learning Continuity and Attendance Plan for Northern United - Siskivou Charter School

2020-21 Learning Continuity and Attendance Plan for Northern United - Siskiyou Charter School

A description of the aspects of the Learning Continuity and Attendance Plan that were influenced by specific stakeholder input.]
Based on feedback from students, families and staff, we determined that for very young children, packets were more effective than digital meetings and for students with higher levels of need, we feel in person meetings will be most effective. Because in the spring we approached grading with a more holistic approach and put more emphasis on mental health rather than academics, we feel the need to increase and emphasize academic rigor to reduce learning loss and to create a more normalized educational setting for our students, staff and parents. This feedback was all considered prior to finalizing the plan.
Continuity of Learning
In-Person Instructional Offerings
[A description of the actions the LEA will take to offer classroom-based instruction whenever possible, particularly for students who have experienced significant learning loss due to school closures in the 2019–2020 school year or are at a greater risk of experiencing learning loss due to future school closures.]
We will be completely home-based independent study during the fall semester. Students who have also had in-person classes at one of our learning centers will continue to receive instruction via Zoom. Students who have regular in-person tutoring sessions will also receive their tutoring via Zoom. Students without a computer and/or internet at home will be provided Chromebooks and/or internet hotspots. When the above is not viable or not allowable in the case of special education services, in-person one-on-one sessions will be made available at one of our centers. Anyone entering the building will follow the strict protocols outlined in the reopening plan that was submitted to the Slskiyou County Department of Public Health.
To determine the level of learning loss experienced by a student, we will use STAR-Renaissance assessments in English and math. Results of those assessments will include both STAR and CAASPP Interim Assessments throughout the year. Summative assessments will include both STAR and CAASPP assessments.
The school counselor and school psychologist have regular office hours in which they are available for consultation and counseling services. They compiled a list of resources for mental health support. This resource list is shared with all staff and on our website for family and student access. It is kept up-to-date as new resources emerge. The counselor and school psychologist meet via Zoom with students needing support. In addition, counseling support is available through referral through Children First & Lassen Counseling Services.
Once we are able to resume in-person classes, the following protocols will be followed: Any in-person instruction that occurs will be on alternating days of facility attendance with pods or cohorts of students. For high school students, the master schedule has been altered to allow for more classes to be completed online only. As an independent study program, much of what we do will not change. Parents are going to be the primary instructors for their children. We provide needed supplies, materials, and instructional support. Instructional and enrichment supports that have previously happened at one of our learning centers will now happen via Zoom. Chromebooks and internet hotspots were provided to all students who requested them. As new students have enrolled, they were also asked about their needs in this area. Chromebooks and/or hotspots will be provided to all who request them.
We also provide computers, Chromebooks, hotspots, and document cameras to teachers as needed. Both our teachers and our IT department are available to provide help to parents and students struggling with technology use.
Pupil Participation and Progress [A description of how the LEA will assess pupil progress through live contacts and synchronous instructional minutes, and a description of how the LEA will measure participation and time value of pupil work.]
As a nonclassroom based, independent study program, our attendance is determined by assessing the amount of work completed rather than physical attendance at a facility. If a student is found to be falling behind in their assignments, a meeting will be held, as outlined in our missed assignment policy, to determine how we can better support students in completing their assignments at home.
We will also be tracking contacts with students, as well as their participation in Zoom classes and tutoring sessions. This data will help us determine which students are not taking advantage of the extra instructional supports we are providing and will be helpful when having a missed assignment policy meeting.
As part of our missed assignment policy and procedures, if a student, through observations and/or common assessments, is determined by their teacher to be not progressing or participating, the teacher will contact the parents, as well as an administrator. A meeting will be held with the family to determine what barriers exist to impede participation or progress and a plan will be developed and implemented to reduce these barriers and get the student back on track.

Staff Roles and Responsibilities A description of the new roles and responsibilities of affected staff as a result of COVID-19.] IA description of the new roles and responsibilities of affected staff as a result of COVID-19.] Since we are already a nonclassroom based, independent study program, much of what we do will not change, with the exception of increasing the frequency of interaction and engagement with their students beyond what is normally required by independent study contracts. Staff will need to become even more attured to the emotional and mental health of their students. Staff may also be making more deliveries of supplies and meals to students' homes than they normally do.  Additional supports will be provided to assist students with unique needs in the following ways: EL Students: We do not have any EL students at this time. If we have an EL student enroll, the EL Coordinator will assess him or her and the student's teacher will provide targeted language acquisition instruction daily through Zoom.
 Students with disabilities: Resource specialist time will be delivered primarily online whenever possible or allowable. When in-person resource time is needed, students will come to our learning center for in-person sessions. Similarly, extra tutoring will be available online, and in-person as needed. Speech services are delivered online.
 Foster and Homeless Youth: Our foster youth/homeless liaison will reach out to each foster and homeless student to determine specific needs and to provide resources as needed, including support in receiving public assistance services, laundry, food and supplies. Our school counselor will also contact these students regularly. Tutoring services will be provided as well. We will work with the Siskiyou County Office of Education Foster/Homeless Youth Coordinator to provide additional supports and services.

Through regular online interactions with students and discussions with parents, teachers and other staff members will have ample opportunities to assess students' well being. We will have regular staff meetings in which we will discuss our observations. This will allow a time for teachers to share their concerns with other staff, counselors, and administration and put a plan of action in place to provide support to students who need it. We that suggest a risk for self-harm. We will revisit PD for our staff in trauma-informed teaching practices.

The school counselor and school psychologist have regular office hours in which they are available for consultation and counseling services for students and staff. They compiled a list of resources for mental health support. This resource list is shared with all staff and on our website for family and student access. In order to maintain the highest level of student engagement, we have a multi- tiered strategy for pupil engagement. Tier one includes weekly Zoom meetings with students and families, phone calls to families of students who miss Zoom meetings, regular messaging to parents using Remind platform, and home visits when a student or family can't be reached by phone or text. In order to outreach to families, a comprehensive list of community resources will be posted on our school website, and translations will be made available of all communications, as needed.	After one missed class or scheduled meeting, or a series of missed assignments, we begin our tier two strategy. The first step is that the teacher has a verbal conversation with the parents and student about missing class time and/or assignments and the reasons this is concerning. Barriers to the student engaging and potential solutions to overcome these barriers will be discussed. Our Missed Assignment Policy will be reviewed with the parent at that time. It states that after one missed assignment, the teacher, at his or her discretion may initiate a process to determine if independent study is an appropriate educational setting for the student.	If the problem persists, tier three begins. The administrator will contact the family and request a conference. The parent(s), student, teacher and administrator and, if appropriate, counselor will attend the meeting. The purpose of this meeting is to determine how best to support the student. At the meeting, specific goals regarding expectations of work completed and attendance of scheduled meetings will be decided and written. These goals will include a timeline and a date to reconvene.	If for some reason, we no longer have any contact with a student or family, a wellness check by law enforcement will be requested.

[For the actions being provided to an entire school, or across the entire school district or county office of education (COE), an explanation of (1) how the needs of foster youth, English learners, and low-income students were considered first, and (2) how these actions are effective in meeting the needs of these students.]
The actions and services in Northern United - Siskiyou Charter School's LC & AP are targeted toward supporting students with the greatest need and/or the lowest performance. Because of the school closure during the 2019/2020 school year due to COVID-19, some students experienced a learning loss. An examination of students who are failing to meet expected outcomes revealed that students who are English learners, foster youth, homeless, and/or low income are continually over-represented. The remaining students who are struggling do not fall into one of the targeted groups of students but are enrolled throughout Siskiyou County. Each student who is not meeting expected outcomes or has experienced learning loss has a need for tiered services, higher skilled teachers, and access to a strong Common Core-Based instructional program. Through focused actions and services through school wide or targeted services as appropriate, we intend to increase the rate of student success and reduce effects of learning loss.
The LC&AP includes actions and services intended to support both academic and social-emotional growth and success for students in either home-based or in person independent study. Programs or services targeted to specific groups are included, as well as other actions or services that support our ability to meet the needs of struggling students regardless of where they are served. These actions/services are principally directed to the unduplicated students and are effective in meeting the needs of the unduplicated count.
[A description of how services for foster youth, English learners, and low-income students are being increased or improved by the percentage required.]
The following actions/services are contributing to increased or improved services principally targeted to foster youth, English learners, and low-income students are being provided on a school-wide basis: Extra counselor and psychologist office hours with an emphasis on unduplicated and other high risk students Provide bus passes to students as needed Provide hotspots to students as needed Provide hotspots to students as needed

Agenda Item 5. ACTION ITEMS TO BE CONSIDERED

Subject:

5.1 Approval of the Physical Education Policy revisions

Action Requested:

Approval

Previous Staff/Board Action, Background Information and/or Statement of Need:

Revisions made to the Physical Fitness Testing Policy is to help make it more feasible for transfer students and seniors to focus on their needed academic credits, while still requiring a sufficient amount of physical education in the previous years of high school.

Fiscal Implications:

None

IV- 06 Physical Fitness Testing Policy

Public school students in grades five, seven and nine are required to take the Physical Fitness Test ("PFT").

The School Director or designee shall designate an employee to organize, oversee and administer the PFT annually during the months of February through May to all students in grades five, seven and nine. The designated employee will record and submit the data to the state by June 30, of each school year.

The PFT is composed of the following six fitness areas:

Aerobic Capacity:

- Pacer
- One-Mile run
- Walk test (only for ages 13 or older)

Abdominal Strength and Endurance

• Curl-ups

Upper Body Strength and Endurance

- Push-ups
- Modified Pull-up
- Flexed-Arm Hang

Body Composition

- Skinfold Measurements
- Body Mass Index
- Bioelectric Impedance Analyzer

Trunk Extensor Strength and Flexibility

• Trunk Lift

Flexibility

- Back-Saver Sit and Reach
- Shoulder Stretch

HIGH SCHOOL REQUIREMENTS

All grade nine students are required to participate in the PFT. If a student does not pass all six components of the PFT in grade 9 they can retake the parts of the test they did not successfully pass every year until they pass. To graduate with a diploma, a student must have 20 credits of P.E.

Agenda Item 5. ACTION ITEMS TO BE CONSIDERED

Subject:

5.2 Approval of the NUCS 2020-2021 Annual Goals

Action Requested:

Approval

Previous Staff/Board Action, Background Information and/or Statement of Need:

The Board adopts goals each year to help focus administration on priorities for the schools. A plan will be adopted to address the goals. The School Director will update the Board on progress on the goals. Progress on the goals will be used as a basis for the evaluation of the School Director and Regional Directors.

Previously Suggested goals:

- 1. NUCS will improve student performance outcomes in the core academic areas.
- 2. NUCS will ensure that all students have access to an appropriate education and are provided ample opportunity to learn in environments that reflect twenty-first century learning.
- 3. NUCS will improve school climate and parent community involvement to promote and cultivate a positive, safe environment for all.

New goals attached.

Fiscal Implications: None

2020-2021 Northern United Charter School Annual Goals

Goal #1:

Northern United Charter Schools will identify students with learning loss, as a result of school closure due to Covid-19, and provide intervention in order to improve student performance outcomes in the core academic areas.

<u>Goal #2</u>:

Northern United Charter Schools will ensure that all students have access to an appropriate education, whether digitally or in-person, and are provided with the educational tools required to learn in environments that reflect 21st century learning.

Goal #3:

Northern United Charter Schools will utilize engagement strategies with students to ensure a positive school experience and offer remote opportunities for parent/community involvement.

Northern United -Humboldt Charter School Regional Director Board Report

What's happening Schoolwide?

As a school, we enjoyed a wonderful fall summit on August 27th & 28th. While we were all on Zoom together, it was great to discuss the upcoming year, our reopening plans, share best practices, and catch up with everyone following the summer break. All teachers are busy working on their Keenan training videos, setting up their sanitation stations at centers, and reviewing all the information required to open up safely. Teachers are busy setting up their zoom classes and schedules; communicating with parents and families; providing students with Chromebooks and hotspots; CRC has distributed all the PPE supplies; STAR assessments have started at some of our centers and our breakfast program is underway. A few individuals will be training in relation to our WASC Self-Study evaluation. A full self-study visit is planned for 2022.

What's happening at Individual Learning Centers that is Newsworthy?

CLC and ELC had their BTSN. CLC had a virtual BTSN, while ELC split parent groups up in pods and had face-to-face meetings. Both centers had a wonderful turn out of parents/guardians. ELC students have been trained in both zoom and other on-line platforms in order to be successful in their academic endeavors. ELC is still hosting the CTE Pathway Course for grades 11t and 12th via Zoom. Moreover, My Future, My Plan is being offered as a freshman seminar course. All centers, as well as IST's are busy setting up Zoom classes and meetings. IXL, our intervention program, is being updated with some teachers beginning the process of intervention for students who need extra support.

NU-Siskiyou Regional Director Board Report 9/10/2020

In Mt Shasta,

Students in Mt Shasta have been arriving by appointment at Pine Grove Drive and Alder Street. Pine Grove meetings are happening outdoors. At Alder St., Laurie, we have a stanchion set outside that keeps people from physically coming to the front door. They are greeted by Laurie or Dawn to pick up curriculum, materials and supplies. Zoom classes will commence on Tuesday, Sept. 8th. Until then, students are completing assignments given at the time of receiving their curricula and materials.

In Yreka,

Students have been arriving at 423 and 505 S. Broadway by appointment. They call from outside when they arrive to go over the screening questions. A staff member meets them at the door to let them in. If they are not wearing a mask, one will be provided. They are asked to use hand sanitizer upon entering. They proceed to the teacher's office to pick up and go over the curriculum. They are provided Chromebooks and hotspots and other supplies as needed. After they leave, the teacher sanitizes surfaces and doors. Zoom classes will begin on Monday, September 14th. Until then, students are completing assignments given at the time of receiving their curricula and materials.

We had the new awning installed at 505 S. Broadway!

We've had 110 combined responses as of Sept. 3rd on our Google Form Covid-Screening questionnaire.

We are seeing students in middle school express interest in Apex Learning online classes. We have 28 total students enrolled in Apex classes now. We have 50 core subject licenses and 10 technology course licenses.

Our Remind notification system user list has been updated. School Pathways is working on a fix to the nightly sync to make Remind more user-friendly for teachers.

Pine Grove Online Learning Schedule 2020-2021

All classes are held on Zoom. Links will be emailed to you and are reusable for each week.
